

LOWER PROVIDENCE TOWNSHIP SEWER AUTHORITY

**SANITARY SEWER SMOKE TESTING
NOTICE TO RESIDENTS**

July 9, 2010

As part of an ongoing effort to improve the sanitary sewer service, Mr. Rehab, Inc., working in conjunction with the Lower Providence Township Sewer Authority, will be conducting smoke testing on the sanitary sewer lines to locate sources of rainwater inflow to the sewer. Notices will be hand-delivered to individual residences approximately 48 hours prior to actual testing.

The testing will begin the week of Monday, July 12, 2010 on the following streets:

Lexington Lane
Long Meadow Drive
Deerfield Drive
Highgate Road
Village Green Lane
Martha Lane
Walker Lane (3001 to 3025)

During the testing, white smoke will exit from vent pipes on the rooftops and from breaks in the sewer lines. The smoke used is not harmful to people or property. It is almost odorless and leaves no residue. The smoke cannot enter buildings unless there is a defect in the building's plumbing or a dry trap in a seldom-used sink or drain.

If you have seldom used drains, please pour a gallon of water in the drain to fill the trap. This procedure will help to prevent smoke from entering your living area through the drains.

Any smoke detected within a building should be reported to the field workers during the testing at that time or by calling Mr. Rehab, Inc. at (717) 697-1242.

Field crews working on the sewer testing program in this area will have proper identification badges. **AT NO TIME WILL FIELD CREWS HAVE TO ENTER YOUR RESIDENCE OR BUSINESS.**

Your cooperation is requested for this worthwhile endeavor to protect our environment while providing you with the most efficient sewer service for the lowest possible cost. For any other general information, please contact Mr. Rehab, Inc. at (717) 697-1242, the Lower Providence Township Sewer Authority at (610) 539-6161, or Gannett Fleming Engineers, 610-650-8101.
