OPINION, DECISION AND ORDER OF THE LOWER PROVIDENCE TOWNSHIP ZONING HEARING BOARD

The applicants, Alfred M. and Deborah A. DiGiovanni (hereinafter referred to as the "Applicants"), filed an application requesting a variance from Section 143-37 in connection with proposed construction of an addition to their single family residence. The application was properly advertised, and a public hearing was held before the Lower Providence Township Zoning Hearing Board on September 24, 2009 at the Lower Providence Township Building. All members of the Zoning Hearing Board were present as well as the Solicitor and the Court Reporter.

FINDINGS OF FACT

1. The Applicants are Alfred M. and Deborah A. DiGiovanni.
2. The Applicants are the legal owners of the subject property.
3. The subject property is located at 309 Rogers Road, Norristown, PA 19403 (the "Property"). The parcel no. is 43-00-12460-00-7.
4. The applicable zoning is R-2, Residential District.
5. The Applicant was not represented by legal counsel.
6. The lot size of the Property is approximately 10,860 square feet.

7. The present use on the Property, a single family home, began in approximately 1950. The Applicants have owned the Property since 1995.

8. The Applicants propose to build a small addition to the rear of the single family residence, as specified in the drawings attached to their application for relief, which was marked as Exhibit B-1 at the hearing.

9. The proposed addition will have a footprint of approximately 89 square feet.

10. The proposed project is an addition to the existing family room at the rear of the residence. The addition will provide space for a hot tub which previously has been housed in a gazebo outside of the dwelling.

11. The hot tub is necessary for year-round treatment of arthritis and disc problems in Mr. DiGiovanni's back, as recommended by a doctor.

12. Moving the hot tub indoors will eliminate the need for housing the hot tub outside in the gazebo covered by a tarp in the winter.

13. One side of the existing dwelling on the Property is 13 feet three inches from the side property line. That side of the existing dwelling is 33 feet long.

14. The proposed addition would be located at the rear of the existing dwelling on one side of the existing family room. The exposed side of the proposed addition would be located 13 feet three inches from the side property line flush with that side of the existing dwelling, and would extend from the rear of the existing dwelling for an additional 14 feet.

15. The existing dwelling is nonconforming with respect to the side yard setback on both sides.

16. The proposed addition would extend the existing nonconformity with respect to the side yard setback on one side of the Property for an additional 14 feet.

17. The style and structure of the proposed addition would be consistent with the style and architecture of the existing single family dwelling on the Property. Siding on the proposed addition would match the siding on the existing dwelling and there would be an asphalt shingle roof.

18. The proposed addition would fit in with the existing houses on the street and would have no adverse effect on the neighborhood.

19. The Applicants spoke with neighbors about the project, and they presented as Exhibit A-3 at the hearing a petition in support of the requested zoning relief regarding the project (so long as the proposed addition does not go beyond the existing side of the home) which was signed by numerous residents of Rogers Road, including neighbors on the right and left side of the Property.

20. No neighbors or other members of the public testified at the hearing.

21. The proposed addition will not alter the essential character of the neighborhood in which the Property is located.

22. The unique physical characteristics of the narrow lot are causing a hardship.

23. This is not a self-created hardship. Instead, it results from the unique physical characteristics of the Property.

DISCUSSION/CONCLUSIONS OF LAW

1. The Applicants are the legal owners of the Property and have standing to appear before the Board regarding the requested relief.

2. Denial of the requested relief will impose an unnecessary hardship upon the Applicants.

3. The hardship is not self imposed, and is due to the unique physical circumstances of the Property and the location of the existing dwelling on the lot.

4. The approval of the requested relief is necessary to enable the reasonable use of the Property.

5. The variance granted by the Board will not alter the essential character of the neighborhood or the zoning district in which it is located, will not substantially impair the appropriate use of adjacent properties and will not be detrimental to the public welfare.

6. The variance granted by the Board represents the minimum that will afford relief from the hardship.

The Applicants have requested a variance from the side yard setback requirements in connection with a proposed addition to the rear of the existing single family residence located on the Property. This is a request for relief from requirements of the Zoning Ordinance of a dimensional nature, not for relief as to use requirements or limitations.

Differing standards apply to use and dimensional variances. Generally, a variance requires the applicant to show that unnecessary hardship will result if a variance is denied and that the proposed use will not be contrary to public interest. Hertzberg v. Zoning Bd. Of Pittsburgh, 554 Pa. 249, 257, 721 A.2d 43, 47 (1998) (citing Allegheny West Civic Council, Inc. v. Zoning Bd. Of Adjustment of the City of Pittsburgh, 547 Pa. 163, 167, 689 A.2d 225, 227 (1997)).

The Supreme Court in Hertzberg held that the Zoning Hearing Board must, at the beginning of its analysis of an appeal from the terms of the Zoning Ordinance, determine whether the requested relief is for a use variance or a dimensional variance. Id. at 263-64, 721 A.2d at 50. The quantum of proof required to establish unnecessary hardship is lesser when a

dimensional variance, as opposed to a use variance, is sought. Id. at 258-59, 721 A.2d at 47-48. In addition, to justify the grant of a dimensional variance courts may consider multiple factors, “including the economic detriment to the applicant if the variance was denied, the financial hardship created by any work necessary to bring the building into strict compliance with the zoning requirements and the characteristics of the surrounding neighborhood.” Id. at 263-64, 721 A.2d at 50.

It is only the stringency of the standard in proving an unnecessary hardship that varies, depending on whether a use or dimensional variance is sought. Great Valley School District v. Zoning Hearing Board of East Whiteland Township, 863 A.2d 74, 83 (Pa. Commw. 2004), appeal denied, 583 Pa. 675, 876 A.2d 398 (2005) (citing Zappala Group, Inc. v. Zoning Hearing Board of the Town of McCandless, 810 A.2d 708, 710-11 (Pa. Commw. 2002), appeal denied, 573 Pa. 718, 828 A.2d 351 (2003)); The Friendship Preservation Group, Inc. v. Zoning Hearing Board of Adjustment of the City of Pittsburgh, 808 A.2d 327 (Pa. Commw. 2002); Cardamone v. Whitpain Township Zoning Hearing Board, 771 A.2d 103 (Pa. Commw. 2001).

Despite the trend to apply a relaxed standard to dimensional variances Pennsylvania case law is clear in its approach to the issuing of variances and demands that the reasons for granting a variance must be substantial, serious, and compelling. POA Company v. Findlay Township Zoning Hearing Board, 551 Pa. 689, 713 A.2d 70 (1998); Evans v. Zoning Hearing Board of the Borough of Spring City, 732 A.2d 686 (Pa. Commw. 1999); Soteneanos, Inc. v. Zoning Board of Adjustment of the City of Pittsburgh, 711 A.2d 549 (Pa. Commw. 1998). Moreover, variances from zoning codes should be granted sparingly and only under exceptional circumstances; a variance should not be granted simply because such a grant would permit the owner to obtain

greater profit from or use of the property. Commonwealth v. Zoning Hearing Board of Susquehanna, 677 A.2d 853 (Pa. Commw. 1996).

In order to grant a variance, the Board must make the findings set forth in § 910.2 of the Municipalities Planning Code, 53 P.S. § 10912.2, where relevant. See Hertzberg, 554 Pa. at 256-57, 721 A.2d at 46-47. The law established by the Pennsylvania courts further establishes these standards, stated in full herein. See Alpine Inc. v. Abington Township Zoning Hearing Board, 654 A.2d 186 (Pa. Commw. 1995); Appeal of Lester M. Prang, Inc., 169 Pa. Commw. 626, 647 A.2d 279 (1994). The findings that the Board must make, where relevant, in granting a variance as set forth in the Municipalities Planning Code are as follows:

(1) That there are unique circumstances or conditions, including irregularity, narrowness, or shallowness of lot size or shape, or exceptional topographical or other physical conditions peculiar to the particular property and that the unnecessary hardship is due to such conditions and not the circumstances or conditions generally created by the provisions of the zoning ordinance in the neighborhood or district in which the property is located.

(2) That because of such physical circumstances or conditions, there is no possibility that the property can be developed in strict conformity with the provisions of the zoning ordinance and that the authorization of a variance is therefore necessary to enable the reasonable use of the property.

(3) That such unnecessary hardship has not been created by the applicant.

(4) That the variance, if authorized, will not alter the essential character of the neighborhood or district in which the property is located, nor substantially or permanently impair the appropriate use or development of adjacent property, nor be detrimental to the public welfare.

(5) That the variance, if authorized, will represent the minimum variance that will afford relief and will represent the least modification possible of the regulation in issue.

The requested variance is from the applicable side yard setback requirements of Section 143-37 of the Lower Providence Township Zoning Ordinance. Pursuant to Section 143-37, the applicable minimum side yard setback for principal and accessory buildings over 250 square feet where both public water and public sanitary sewer service are available is 20 feet. The Applicants requested this variance in order to construct a proposed addition to the existing family room in the rear of the existing dwelling.

One side of the existing house is located approximately 13 and one-quarter feet from the side of the Property. The proposed addition, which will be approximately 6 and one-third feet feet wide and 14 feet long and will be flush with one side with the existing dwelling, will extend the existing nonconformity with regard to the side yard setback on one side of the Property toward the rear an additional 14 feet.

The Board finds that the Applicants are requesting a reasonable accommodation for the proposed addition to house the hot tub which is necessary for year-round doctor-recommended therapeutic treatment of Mr. DiGiovanni's back problems. The Applicants have demonstrated that there are unique physical characteristics of the Property including the dimensions of the lot and the location of the existing dwelling on the narrow lot. The requested variance is necessary to alleviate unnecessary hardship due to the unique physical circumstances and characteristics of the Property, including the size, dimensions and other unusual physical characteristics of the lot. The Applicants did not create the unnecessary hardship.

Due to the unique size, dimensions and other characteristics of the lot, the construction of the existing house and the existing setbacks, this is the most minimal manner of expanding the

house. Therefore the requested variance represents the minimum variance that will afford relief and represents the least modification possible of the applicable provisions of the zoning ordinance.

The proposed addition will be consistent with the existing residence and the neighborhood; therefore the granting of the variance conforms to the essential character of the neighborhood and will not impair the appropriate use or development of any adjacent properties.

The Board finds and concludes that based on the testimony presented by the Applicants the standards for granting a dimensional variance have been met and the requested dimensional variance should be granted subject to the condition that the addition shall be no closer to the side lot line than that side of the existing dwelling.

DECISION

The decision of the Lower Providence Township Zoning Hearing Board by a 5-0 vote is as follows:

The application for variance from the side yard setback requirements of Section 143-37 in connection with the Applicants' proposed addition is granted, on condition that the addition shall be no closer to the side lot line than the existing dwelling.

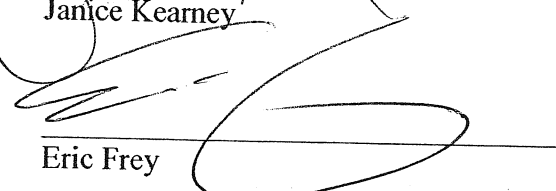

Dated: November 6, 2009

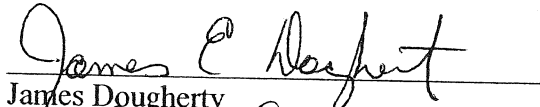

ORDER

The foregoing Findings, Discussion and Decision are hereby approved and ordered.

NOTE TO APPLICANT

There is a thirty (30) day period after the date of a decision for an aggrieved person to file an appeal in the Court of Common Pleas of Montgomery County to contest an approval or denial by the Zoning Hearing Board. If the Applicant has been granted Zoning Hearing Board approval, the Applicant may take action on said approval during the thirty (30) day appeal period; however, the Applicant will do so at his or her own risk. If the Applicant received Zoning Hearing Board approval, the Applicant must secure all applicable permits from Lower Providence Township within one (1) year of the date of the approval or the decision granting approval.
